

TAWKEED

Conformity & Certification

Your Gateway to Omani market

About Us

Tawkeed Conformity was licensed by the Directorate General for Standardization and Metrology (DGSM) in 2021 to support the government role in insuring products safety and conformity to standards and regulation and issuance of conformity certification for products prior to entering to the Omani Market.

Our partnership with Directorate General extends back in time since 2015 through various levels of engagements such as; participation in metrology conferences, and in conducting ISO17025 Capacity Building programs for government and local Laboratories technicians.

As part of our contribution to the national vision 2040, our Services are delivered by qualified Omani Assessors with accumulative experiences and knowledge of more than of the 40 years in Health Regulation, Engineering, Technical Specification and health audits.

This diverse experience empowers us with confidence and agility in addressing our clients' needs at strategic and planning levels, well before they commit to expensive purchase agreements.

Shared Values, Sustainable Partnership

OUR VISION

To become the trusted partner and contributor in the development of Oman Quality infrastructure (OQI).

OUR MISSION

We deliver our services by qualified Omani Technical Assessors, who provide unconditional support and deliver quality certification services to our customers, and maintain strong partnership with the Directorate General of Standards and Metrology (DGSM) and relevant Stakeholders.

OUR VALUE PROPOSITION

Positively contribute to consumer protection acts, client's businesses sustainability, and Oman Quality Infrastructure through;

Quality

Care

Trust

Team work

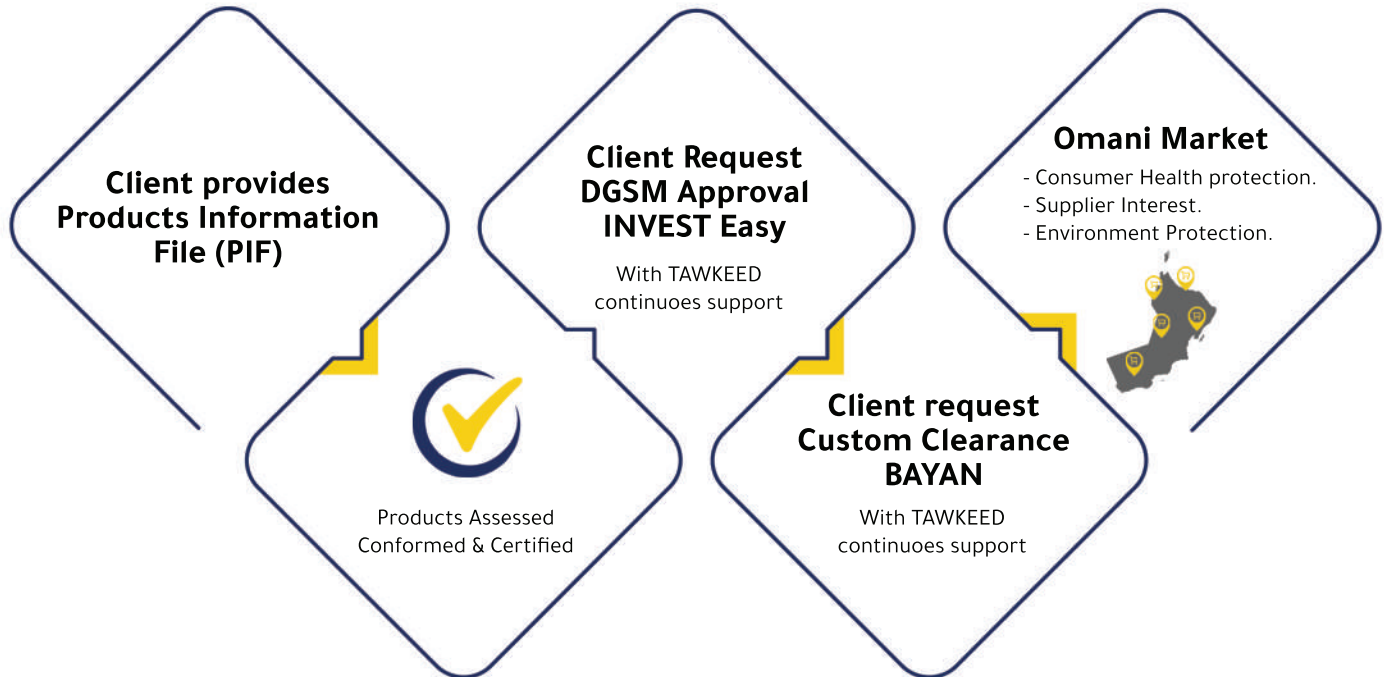

Impartiality

Knowledge

Transparency

Because We Care We Listen, We Advise & We Deliver

Our fast response, team work , advise and resourcefulness in resolving product clearance issues, are our strengths. We pledge to work hand- in- hand with your team through the full Product Certification, MOCI approval and Custom Clearance Cycles.

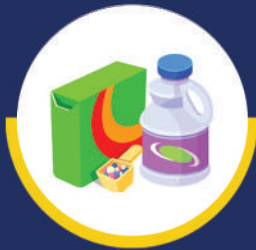

We are mindfully working within the Quality Framework as our certification Service adheres to Oman Authority Directive, Gulf and International standards, and inline with ISO 17065. We thrive to cascade this quality controls to our clients culture in order to enhance efficiency, avoid costly purchase due to product safety issues.

While thriving to expand our scope of operation to provide conformity assessment for products from outside Omani market, we proactively support Omani product export to the world, by providing pre-shipment certificates for major Omani industries such as;

Cosmetics & Personal care

Laundry Detergents

Dishes wash & House cleaning

Paints

Cars Batteries

Cars Lube oil

Construction materials

Tobacco

Shared Values, Sustainable Relation

Client List

With us, you can achieve your Corporate Goals and Objectives and save on business operating cost through our timely Technical Advice, and our yearly certification planning, well before committing your company to costly purchase agreements.
